

15 years of trendsetting and peer-to-peer learning

For 15 years, our annual Geschäftsberichte-Symposium (GBS) has been recognized as a platform for sharing knowledge and networking in the corporate reporting community. It attracts more than 300 decision-makers, experts and practitioners every year to engage in lively debates, learn how they can increase the quality of their reporting and get inspired by the latest know-how and best practice in corporate reporting. Over the past 15 years, we have not only continuously developed the GBS but have also built a community of over 80 members who regularly meet at member-only events, benefit from peer-to-peer learning, exclusive publications and tailored consulting services.
